gohanpeter@gmail.com | +63 916 644 9404

SUMMARY

Information Technology graduate with hands-on experience in software development and a strong interest in data analysis and system design. Experienced in working on real-world projects involving web applications, databases, and process improvement. A quick learner with strong problem-solving and collaboration skills, eager to contribute to diverse IT roles and continue developing technical and analytical expertise.

PROFESSIONAL EXPERIENCE

January 2025 - May 2025

Software Developer Intern, Sites At Scale

- Built and maintained WordPress sites using custom themes and plugins
- Fixed bugs and improved performance using HTML, CSS, JavaScript, and PHP
- Worked with developers on responsive design and API integration

PROJECTS

Ely Trucking Management System

Full-stack logistics system with a web platform and driver mobile app developed to streamline booking, driver assignment, and route management. Designed and implemented frontend and backend features, database workflows, and REST API integrations, and built a driver-facing Flutter app to support real-time assignment access and on-the-road operations.

Technologies: PHP, Laravel, MySQL, SQL, JavaScript, REST APIs, Flutter

Artesano – E-commerce Platform

Web-based e-commerce application supporting product listings, inventory management, and order processing for a local business.

Technologies: PHP, MySQL, HTML, CSS, JavaScript, Firebase

Local Emergency Services Locator App

Mobile app providing geolocation-based access to nearby hospitals and police stations with offline support for low-connectivity scenarios.

Technologies: MIT App Inventor, Firebase, Geolocation APIs

SKILLS

Frontend: JavaScript, ReactJS, Angular, HTML5, CSS, Tailwind

Tools: Git & GitHub, VS Code, XAMPP

Backend: PHP, Laravel, REST APIs, Node.js, JSON

Mobile / Cross-Platform: Flutter

CMS: WordPress (themes, plugins, customization)

Databases: SQL, MySQL, Firebase

Data & Analytics: Tableau (basic dashboards), data handling

EDUCATION

Bachelor of Science in Information and Technology
Silliman University

Aug 2021 - May 2025

TRAINING & CERTIFICATIONS

- **Technical Education and Skills Development Authority (TESDA)** – Developing Designs for User Interface (2025)
